Kdenlive Video editor shortcuts

CONCEPTS

Press Ctrl+Alt+I and type: every menu action is searchable, even ones without a shortcut.

The workflow: set a zone (I/O) in the clip monitor, then V inserts it into the timeline at the playhead, B overwrites.

- **Project Bin** import clips
- **Clip monitor** set zone I / O
- **Timeline** V insert, B overwrite
- **Project monitor** play, review
- **Render** Ctrl+Return

Shortcuts are the defaults of 26.08 and are rebindable in Settings > Configure Keyboard Shortcuts (Ctrl+Alt+,).

PLAYBACK

Space Play / stop

K Pause

L
Play forward (press again to speed up)

RECIPES

Rough cut from a long clip

```
# double-click clip in bin to open it
J / K / L   # scrub to the start
I           # zone in
O           # zone out
V           # drop it at the playhead
```
