LazyVim

Space-leader Neovim setup

CONCEPTS

Press Space and wait: which-key lists every group. Each letter after Space is a mnemonic (f file, s search, g git, c code, b buffer, u UI toggle).

Leader is Space, local leader is backslash. Keys here are normal mode unless noted; Space x y means press the keys one after another.

FILES & SEARCH

Space › Space
Find files (project root)

Space › /
Grep in project root

Space › ,
Switch open buffer

Space › f › r
Recent files

Space › s › w
Grep word or selection
