Notion Windows / Linux shortcuts

CONCEPTS

Type / in any block to insert anything: headings, lists, tables, embeds. Keep typing to filter the menu.

Shortcuts shown are for Windows and Linux. On macOS read Ctrl as Cmd and Alt as Option; block-type keys use Cmd+Option instead of Ctrl+Shift.

Esc selects the block you are typing in. Then arrows, Shift+Arrows and Ctrl+Shift+Arrows work on whole blocks instead of text.

Workspace sidebar of pages
Page can nest sub-pages
Block one paragraph, list item, embed
