ranger Console file manager

CONCEPTS

Parent	Current directory	Preview

Miller columns: parent, current, preview

Commands act on the marked files if there are any, otherwise on the file under the cursor.

Press : to open the console; every key here is a shortcut for a console command.

Press ? then k for the key list, c for commands, m for the man page.

Many keys are prefixes: after g, o, z, d or y a hint list shows the options.
