Vifm vi-like file manager

CONCEPTS

Vifm behaves like vi: normal mode for keys, : for commands, visual mode (v) for ranges. Two panes show two directories; copy and move work between them.

Left pane and right pane; Tab switches, p puts here

yy only marks files; the copy happens at p. Use P to move instead. Files you have selected with t or v are used instead of the file under the cursor.

NAVIGATION

j / **k**
Down / up

h
Go to parent directory

l / **Enter**
Open file or enter directory

gg / **G**
First / last entry

Ctrl + **F** / **Ctrl** + **B**
Page down / up

:cd *<path>*
Change directory
