Tab page a layout of windows
Window a view onto a buffer
Buffer a file in memory

CONCEPTS

Vim has modes. Normal mode is home: keys are commands. Press Esc to return to it.

Commands read like a sentence: operator + motion, e.g. d w deletes a word, c i " changes inside quotes.

Prefix a count to repeat: 3 d d deletes three lines, d 2 w two words.

Key sequences are typed one after another, not held together: d w means press d, then w.
