VLC Media player hotkeys

Open media file, disc, stream | **Playlist** queue of items | **Playback** seek, speed, tracks | **Output** window, snapshot, record

CONCEPTS

Hotkeys act on the video or main window when it has focus; the Qt interface is assumed, and bindings can be changed in Preferences, Hotkeys.

Shortcuts shown are for Windows and Linux. On macOS many use Cmd instead of Ctrl (for example Cmd+O, Cmd+Up) and some differ, so check the menus.

Plain-letter hotkeys can be remapped; list yours in Tools, Preferences, Show All, Hotkeys.

PLAYBACK

Space Play / pause

S Stop

N Next item

P Previous item

Shift + **Left** / **Shift** + **Right**
Back / forward 5 seconds

Option for one item only

vlc › **--help** List options

RECIPES

Listen to a video's audio only

```
vlc --no-video lecture.mp4
```

Play a clip from 1:30 to 2:00

```
vlc --start-time 90 --stop-time 120 movie.mkv
```

Loop a playlist fullscreen

```
vlc -f --loop ~/Videos/*.mp4
```
