VLC Media player hotkeys

CONCEPTS

Hotkeys act on the video or main window when it has focus; the Qt interface is assumed, and bindings can be changed in Preferences, Hotkeys.

Shortcuts shown are for Windows and Linux. On macOS many use Cmd instead of Ctrl (for example Cmd+O, Cmd+Up) and some differ, so check the menus.

PLAYBACK

`Space`
Play / pause

`S`
Stop

`N`
Next item
