Windows Terminal

Tabbed Windows terminal

CONCEPTS

A profile is one shell plus its look: PowerShell, Command Prompt, each WSL distro. New tabs and panes open a profile.

Keys shown are the shipped defaults. A fresh settings.json also adds Ctrl+C copy, Ctrl+V paste and Alt+Shift+D duplicate pane.

TABS

Ctrl + **Shift** + **T**
New tab, default profile

Ctrl + **Shift** + **1-9**
New tab with profile 1-9

Ctrl + **Shift** + **Space**
