# Zellij Terminal workspace

## CONCEPTS

Zellij has modes. Press a Ctrl+key to enter a mode, then an action key. Creating or closing things returns to Normal; Resize, Move, Scroll and tab hops stay in the mode until Enter or Esc. The bottom bar always shows the keys of the current mode.

Ctrl+g locks Zellij so every key goes to the program inside (vim, shells with clashing keys). Press Ctrl+g again to unlock.

**Session** survives detach
- **Tab** full-screen workspace
  - **Pane** tiled, floating or stacked

In a mode, Enter or Esc returns to Normal. Mode keys are Ctrl+p pane, Ctrl+t tab, Ctrl+n resize, Ctrl+h move, Ctrl+s scroll, Ctrl+o session.
