Zoom Windows meeting shortcuts

CONCEPTS

Most in-meeting shortcuts only work while the Zoom meeting window has focus. Shortcuts can be made global in Settings > Keyboard Shortcuts, but only the ones Zoom marks as eligible.

Shown are Windows keys. On macOS most Alt+letter shortcuts become Cmd+Shift+letter (Cmd+Shift+A mute, Cmd+Shift+V video); Alt+Y becomes Option+Y. A few exist on one platform only.

AUDIO AND VIDEO

Alt + A
Mute / unmute your mic
